When offered separately as Starters and Novice classes, the Starters level classes are for dogs handled by a person who has not previously earned the *Agility Dog* title or a title in the Performance or Veterans Program with any dog. ## **NONSTANDARD CLASSES (AKA Games):**

These classes are scored pursuant to the provisions of Chapters 6 & 7 of USDAA Rules and Regulations.

- **Gamblers Class** consists of a course with no pre-determined route and each obstacle is assigned a point value. In the 'opening' period the handler seeks to accumulate points by performing the obstacles of his/her choice in the time allotted. At the conclusion of the 'opening' period the handler attempts the 'gamble', which is a sequence designated by the judge to be handled from a distance, for additional points.
- **Pairs Relay** consists of a standard course with one dog and handler running a portion of the course, followed by a baton exchange to a second handler and dog who run the second portion of the course. Partners must be in the same level and in the same height division, mini or open. In the event only one dog is entered in program/level, un-entered dogs or dogs from another program/level may not be recruited to form a qualifying pair. Relay is required for titling at all levels of Performance.
- **Jumpers Class** consists of a course of jumps and may include a tire and tunnels.
- **Snooker Class** has an 'opening' sequence of point collection similar to Gamblers followed by a 'closing' sequence of a set pattern.

## **2010 Grand Prix of Dog Agility® World Championships & Performance Grand Prix<sup>SM</sup> - Local Qualifiers**

These tournaments are open to all competitors regardless of titles earned or skill level. Both are a single-round tournament featuring the sport in its basic form. The course includes obstacles as set forth in Chapter 3 of USDAA Rules and Regulations for standard agility, except that no table obstacle shall be used. Standard scoring shall be applied.

Competitors must have a ZERO fault round to earn a qualifying score for which qualifying ribbons are presented. One qualifying score is required for entry in Round 1 of a Regional Championships. Additionally, the first place competitor in each height class who has earned a qualifying score shall be eligible to enter the final round of a Type 1 Regional Championship without regard to their score in the first round. Such eligibility shall be documented through a “bye” voucher. A competitor may earn more than one voucher, and the voucher is non-transferable, can be used only once and must be submitted with the competitor’s entry form for a Type 1 Regional Championship. See complete rules and regulations for Regional Championships, which are hereby incorporated by reference.

**SPECIAL NOTES:** When a local qualifier is held in conjunction with an agility test where all levels of titling are NOT being offered, ‘bye’ vouchers will not be awarded. (e.g. Starters/Advanced only, Advanced/Masters only, Masters only – **Tournament Only shows do not fall into this category**) Competitors with a qualifying score in the top 50% in each height class shall earn a bye into the semifinals at the World Cynosport Games. If at a regional championship a bye is earned by a competitor/dog team who has already earned a bye in that jump height, the bye is forfeited.

The rules may be found on the USDAA web site—General Information—Forms and Documents Library, or may be requested in writing by US mail from the USDAA office. A competitor must have two qualifications from local qualifiers, one of which may be from the first round of a Regional Championship, in order to qualify for entry to the world championship quarterfinals; however, where a competitor may choose to compete in both Grand Prix and Performance Grand Prix qualifiers during the current tournament season, the competitor is only eligible to compete in the championships of the tournament in which they have earned the most qualifications. Further, 2010 tournament rules stipulate that a competitor must compete all in Championship or all in Performance tournaments at Regional and National/World Championship.

## **2010 DOG AGILITY STEEPLECHASE® & PERFORMANCE SPEED JUMPING<sup>SM</sup> TOURNAMENTS**

**Description:** These tournaments are open to all dogs regardless of skill level or titles earned. These two-round tournaments emphasize speed. Each round will be conducted on a jumpers-style course that shall include at least two spread hurdles, a long jump and an A-frame and a minimum of 10 weave poles. Either the A-Frame or weave poles shall be required to be performed twice. Top competitors as set forth under Qualification & Advancement shall advance to Round 2 to compete for prize money, Tournament Top Ten points and Lifetime Achievement Qs. Qualifiers as defined herein earn the right to enter either the quarterfinals or semifinals at the Dog Agility Steeplechase® championships (semifinals for Speed Jumping) to be held in autumn of 2010. Competitors may not be entered in both tournaments at this event.

**Scoring:** Shall be conducted pursuant to USDAA Championship Program Starters level rules, except that scoring in each round shall be on a time plus faults basis, with a five-point penalty added to a competitor’s performance time for each occurrence of a fallen hurdle or missed contact; running the wrong course shall be scored as an elimination as defined under Masters rules. For purposes of qualification calculations, a competitive performance resulting in “elimination” as a result of performance error in the normal pursuit of a round shall be included in the count of competitors “actually competing” in the qualifying score computations.

### **Qualification & Advancement**

Qualification shall be determined based upon the Round 1 scores. Only competitors with scores equal to or less than the maximum qualifying score in round 1 qualify. Qualifiers and placement winners (minimum of four, there is no maximum) in the height class are eligible to advance to Round 2 at a local qualifying event in order to compete for

Top Ten points, Lifetime Achievement Qs and prize money (if awarded in Speed Jumping), provided they have finished the round with a score. Non-qualifying competitors running in Round 2 shall not be credited with a qualifying score regardless of their final standing.

**Steeplechase Eligibility for Entry:**

*Regional Championships:* A competitor must have one qualification at a local qualifier to be eligible to enter Round 1 of a Regional Championships.

*World Championship Quarterfinals:* Two qualifications, one of which may be from the first round of a Regional Championship will be required for entry.

**Speed Jumping Eligibility for Entry into the Championships:** Two qualifying scores as defined herein are required to enter the semifinals at the Performance Speed Jumping<sup>SM</sup> Championships to be held in autumn of 2010.

**Steeplechase Awards:**

*Local Qualifiers:* Prize money shall be computed based upon 20% to 40% (at club’s discretion) of the total entry fees to be allocated in accordance with the payout table below regardless of the size of entry in any height class.

**Speed Jumping Awards:**

*Local Qualifiers:* Prizes or awards shall be provided at the club’s discretion. Should prize money be awarded, the following table shall be utilized

**2010 PERFORMANCE VERSATILITY PAIRS<sup>SM</sup> TOURNAMENT DESCRIPTION**

**Description:** This tournament series is open to all competitors with any dog, regardless of competition level (i.e., starters, advanced and masters). A Pair or “team” may be comprised of dogs from any two height classes (e.g., 8”/12, 16”/16”, 8”/22”, 16”/22”, 22”/22”, etc). Each individual on a team competes in four classes of competition – standard, snooker, jumpers and gamblers choice. Top teams as set forth herein compete in a fifth and final class – the pairs relay, to establish placements for prizes and awards.

Each of the five classes will be conducted pursuant to USDAA Rules & Regulations, except that select performance requirements are subject to judge’s discretion. The following differences are specifically noted:

- The performance requirements of the standard and relay classes as specified in Chapters 3 & 6 and modified by Chapter 7 shall exclude the table (other than as a finish or relay exchange point) and may omit one contact obstacle in the course design at judge’s discretion. When the table is used as a finish or relay exchange point, no position or time requirement shall be imposed.
- The performance requirements of the snooker, gamblers and jumpers classes shall generally follow the requirements of Chapter 6 and modified by Chapter 7 of USDAA Rules & Regulations, except that:

1. The jumpers class shall include the weave poles.
2. The gamblers class may include or omit rules normally applied for point assignments, time allocations and joker requirements.
3. The snooker class course configuration and course components may be at the judge's discretion.

The foregoing variances are subject to the review and approval of the tournament course reviewer and other provisions set forth herein.

**Scoring:** Masters scoring rules shall apply for the determination of faults in all classes. Time-plus-faults scoring method shall be utilized in the standard, jumpers and relay classes (i.e., no standard course time is employed), with the following special values assigned for infractions:

Each Refusal	2 fault points
Three refusals per dog or wrong course	1/2 of the Class Point Value.
Omission of a team member in relay (see special rules)	200 fault points

The resulting scores on a time-plus-faults basis shall be deducted from the standard point-basis for each class as set forth under "Special Rules" in order to calculate points earned by each pair in a given class. In no case shall the score for a single class be less than zero. These points shall be added to points earned in the gamblers and snooker classes, after adjustment as set forth below, to determine each pair's final score. Pair ranking and placements shall be on the basis of cumulative scores through the five classes of competition.

**Qualification:** A qualifying score shall be awarded to competitors who compete in all five classes and whose team scores are in within 25% of the average of the total points earned by the top three teams after the fifth and final class. In the event fewer than three (3) pairs are entered, the minimum qualifying score will be determined using the top score after all 5 classes.

All competitors entered on a team at the World Championships must be qualified through a local or regional qualifying event. Where a competitor has qualifying scores in both Championship and Performance Program tournaments, a competitor is eligible to enter the Performance Program tournaments at a regional, national, and/or world championship event only if the collective number of qualifications in the Performance Program tournaments for the season are greater in number than the number earned in Championship Program tournaments as of the closing date of the event to be entered.

**Awards:** Prizes and awards will be made based upon overall team scores after the five rounds. USDAA will provide "Gold", "Silver" & "Bronze" medals at local qualifying events for the best overall teams. At Regional Championship events held in the United States USDAA will provide placement rosettes for 1<sup>st</sup> through 3<sup>rd</sup> places overall, along with a plaque for each member of the first place team. Each member of a qualifying pair will receive a lapel pin in recognition of their qualification. Additional placement ribbons or rosettes may be awarded at the discretion of the host group.

## **2010 DOG AGILITY MASTERS<sup>®</sup> TEAM DESCRIPTION**

**Description:** This tournament series is open to all competitors with any dog, regardless of competition level (i.e., starters, advanced and masters). A team may be comprised of handlers with dogs from any two height classes (e.g., 12"/26", 16"/26", 22"/22", etc). Each individual on a three-dog/three-handler team competes in four classes of competition – standard agility, snooker, jumpers and gamblers choice. Top teams as set forth herein compete in a fifth and final class – the three-dog team relay to establish placements for prizes and awards.

Each of the five classes will be conducted pursuant to USDAA Rules & Regulations, except that select performance requirements are subject to judge's discretion. The following differences are specifically noted:

- The performance requirements of the standard agility and relay classes as specified in Chapters 3 & 6 shall exclude the table (other than as a finish or relay exchange point) and may omit one contact obstacle in the course design at judge's discretion. When the table is used as a finish or relay exchange point, no position or time requirement shall be imposed.
- The performance requirements of the snooker, gamblers and jumpers classes shall generally follow the requirements of Chapter 6 of USDAA Rules & Regulations, except that:
  1. The jumpers class shall include weave poles and may omit one or more spread hurdles.

2. The gamblers class may include or omit rules normally applied for point assignments, time allocations and joker requirements.
3. The snooker class course configuration and course components may be at the judge's discretion.

The foregoing variances are subject to the review and approval of the tournament course reviewer and other provisions set forth herein.

**Scoring:** Masters scoring rules shall apply for the determination of faults in all classes. Time-plus-faults scoring method shall be utilized in the standard, jumpers and team relay classes (i.e., no standard course time is employed), with the following special values assigned for infractions:

Each Refusal	2 fault points
Three refusals per dog or wrong course	1/3 of the Class Point Value.
Omission of a team member in relay (see special rules)	200 fault points

The resulting scores on a time-plus-faults basis shall be deducted from the standard point-basis for each class as set forth under "Special Rules" in order to calculate points earned by each team in a given class. In no case shall the team score for a single class be less than zero. These points shall be added to points earned in the gamblers and snooker classes, after adjustment as set forth below, to determine each team's final score. Team ranking and placements shall be on the basis of cumulative scores through the five classes of competition.

**Qualification:** A qualifying score shall be awarded to competitors who compete in all five classes and whose team scores are within 25% of the average of the total points earned by the top three teams after the fifth and final class. In the event fewer than five (5) teams are entered, the minimum qualifying score will be calculated using the top score after all 5 classes.

All competitors being entered on a team at the World Championships must be qualified through a local or regional qualifying event. Where a competitor has qualifying scores in both Championship and Performance Program tournaments, a competitor is eligible to enter the Performance Program tournaments at a regional, national, and/or world championship event only if the collective number of qualifications in the Performance Program tournaments for the season are greater in number than the number earned in Championship Program tournaments as of the closing date of the event to be entered.

**Awards:** Prizes and awards will be made based upon overall team scores after the five rounds. USDAA will provide "Gold", "Silver" & "Bronze" medals at local qualifying events for the best overall teams. At Regional Championship events in the United States they will provide placement rosettes for 1<sup>st</sup> through 3<sup>rd</sup> places overall, along with a plaque for each member of the first place team. Each member of a qualifying team will receive recognition of their qualification. Additional placement ribbons or rosettes may be awarded at the discretion of the host group.

**NOTE:** The handler of a dog entered in Team/PVP that measures up must notify the secretary immediately. If the change in jump height makes the dog ineligible for the team, the secretary shall make every effort to form complete teams from dogs available. If the dog is unprepared for the higher jump height, it may run FEO; however, the team/pair shall not qualify, but the partners may compete in the individual classes for top ten points and LAA Qualifications.

If a dog is entered as a DRAW, the test secretary will attempt to match the dog with other unmatched dogs. If a complete team cannot be constructed, the team/pair shall not qualify, however the dog may compete in the individual classes for top ten points, LAA qualifications, and Triathlon scores (see next section).
